

We Deliver Results.

Welcome to OneResults.com

OneResults.com is a unique MSP/VMS solution that helps dynamic companies streamline suppliers, improve productivity and reduce the cost of managing contingent labor. Put simply, we help you bridge the gap between where you are and where you want to be.

We deliver results.

What does working with OneResults.com mean for your company?

- Streamlines processes to reduce the burden on your internal staff.
- Acts as an integral part of your company's procurement, HR or other human capital function.
- Manages the entire contingent talent life cycle from requisition and onboarding through invoicing and payment to the vendors.
- Keeps you compliant with all state and federal labor regulations and governance requirements.
- Using a client customized VMS, you receive complete visibility into the status of each contingent worker at your organization.

- The OneResults.com VMS system provides the ability to manage transactions and all communication with your company.
- The VMS analytics provide detailed information on candidate progress from requisition to onboarding - all in real time. These analytics allow us to make data driven decisions based on contractor performance. Along with our team, this is how we drive RESULTS.

What does it cost for the OneResults.com team to customize and oversee your managed provider program? Nothing.

**All of this at no additional cost to you.
OneResults.com is a vendor fee paid program.**
